

***Trends in the European Investment Fund Industry  
in the Third Quarter of 2011***

---

This report was prepared by Bernard Delbecq, Director of Economics and Research

EFAMA  
The European Fund and Asset Management Association

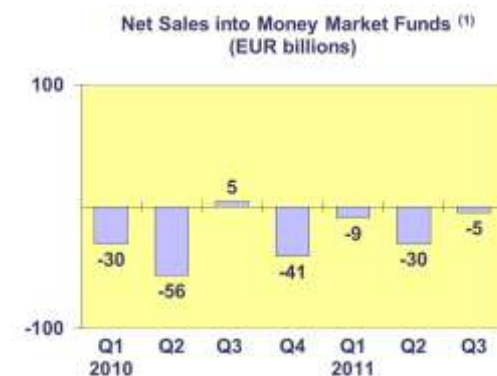

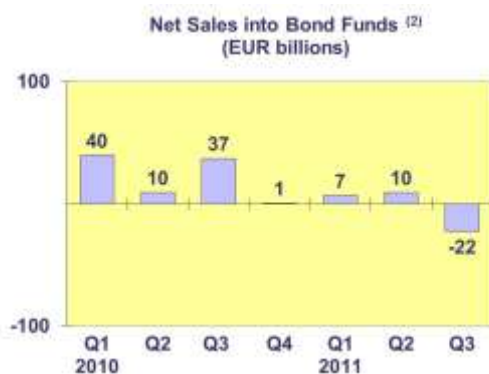

Rue Montoyer 47 - B-1000 BRUXELLES - Tel. 32-2-513.39.69 Fax: 32-2-513.26.43 - e-mail: [info@efama.org](mailto:info@efama.org)

## Trends in the UCITS Market

### *Net Sales by Investment Type*

The third quarter marked a severe turnaround in fortunes as UCITS witnessed quarterly net outflows for the first time since the onset of the sovereign debt crisis in the second quarter of 2010. UCITS net outflows amounted to EUR 83 billion during the third quarter, compared to net inflows of EUR 18 billion in the second quarter of 2011. This turnaround came during a turbulent Summer on financial markets and increasing investor concerns regarding the sovereign debt crises in the USA and Europe and slowing global economic growth. Year-to-date UCITS recorded net outflows of EUR 35 billion.

Long-term funds experienced net outflows of EUR 78 billion during the quarter, the first quarterly outflow since the first quarter of 2009. Equity funds saw net flows plunge during the quarter to record net outflows of EUR 43 billion, compared to net inflows of EUR 8 billion in the previous quarter. Bond funds also suffered during the quarter registering net outflows of EUR 22 billion, compared to net inflows of EUR 10 billion in the previous quarter. Balanced funds witnessed net outflows of EUR 15 billion, compared to net inflows of EUR 23 billion in the second quarter. On the other hand, money market funds experienced reduced net outflows during the quarter, registering EUR 5 billion of net outflows compared to EUR 30 billion in the previous quarter.

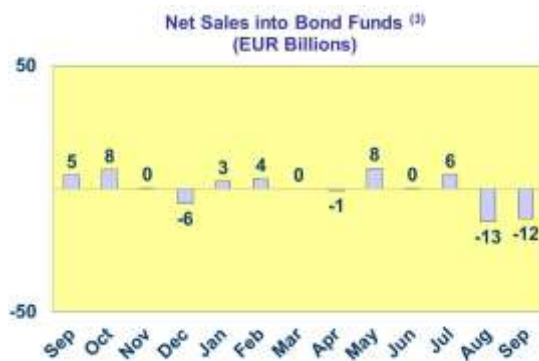

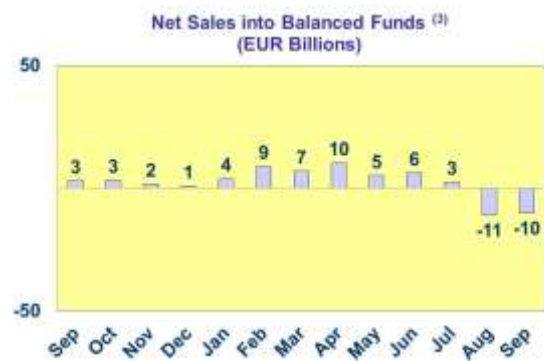

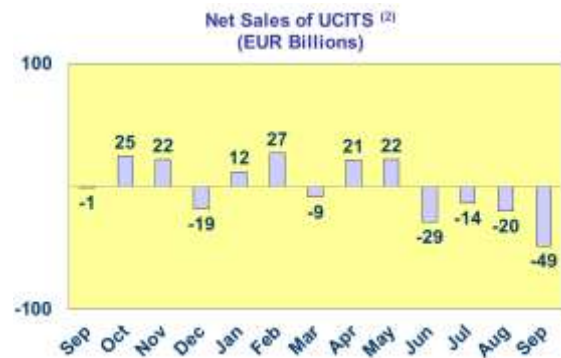

(1) Including Ireland for all quarters.

(2) Including Ireland from Q1 2011.

## Trends in the UCITS Market

### Net Sales by Investment Type

A shift in investor sentiment amidst increasing uncertainty on the global economic outlook and an escalation of the European sovereign debt crisis made for a tough third quarter on financial markets. This can be seen from the trends in monthly net sales<sup>1</sup> for UCITS. This drop was attributable to large net outflows from long-term funds from August. Net outflows remained at an elevated level in September, however did retreat somewhat from the levels seen in August. Nevertheless, uncertainty lingered throughout the quarter causing investors to remain anxious.

<sup>1</sup> Differences in totals between quarterly and monthly net sales reflect differences in the universe of reporting countries.

<sup>2</sup> Including Ireland for all months.

<sup>3</sup> Including Ireland from December 2010.

## Trends in the UCITS Market

### Net Sales by Country of Domiciliation

Three countries recorded net inflows into UCITS in the third quarter of 2011, with the United Kingdom recording net inflows of EUR 3 billion, followed by Romania and Bulgaria.

Twenty-one countries registered net outflows during the quarter, with Luxembourg and France recording outflows of EUR 41 billion and EUR 22 billion respectively, mainly on account of large net outflows from equity and bond funds. Elsewhere in Europe, net outflows in excess of EUR 3 billion were recorded by UCITS domiciled in Italy (EUR 6 billion), Switzerland (EUR 3 billion) and Ireland (EUR 3 billion).

Year-to-date eight countries have recorded net inflows led by Ireland with net inflows of EUR 36 billion since end 2010, followed by the United Kingdom EUR 12 billion, Switzerland EUR 8 billion, Norway EUR 5 billion, Sweden EUR 1 billion, Denmark EUR 1 billion, the Netherlands EUR 1 billion and Romania EUR 0.3 billion. All other countries recorded net outflows in January – September 2011, with four countries experiencing outflows in excess of EUR 5 billion (France EUR 60 billion, Italy EUR 19 billion, Luxembourg EUR 9 billion and Spain EUR 6 billion).

(1) In EUR millions for EFAMA members for which data are available; (2) including funds of funds, except for France, Germany and Italy for which the funds of funds data are included in the other fund categories; (3) net sales not available for the third quarter of 2011; (4) net sales of non-UCITS are included in "other" funds, except net sales of special funds, which are shown in Table 6.

## Trends in the UCITS Market

### *Net Assets by Investment Type*

Total net assets of UCITS decreased by 7.1 percent during the third quarter to stand at EUR 5,472 billion at end September 2011, against EUR 5,892 billion at end June 2011 and EUR 6,008 billion at end December 2010. This fall in net assets reflected decreased net assets of all long-term assets. Equity funds experienced a steep fall in net assets (16.1% or EUR 336 billion) during the quarter, whilst balanced funds experienced a drop in net assets of 7.2 percent (EUR 69 billion). Bond funds registered a slight decrease in net assets during the quarter (1.1% or EUR 16 billion). Funds of funds experienced a decrease in net assets of 10.9 percent during the quarter (EUR 7 billion). In contrast to long-term funds, money market fund assets recorded modest growth during the quarter (1.5% or EUR 17 billion).

The number of UCITS at end September 2011 stood at 36,225, compared to 36,398 at end June 2011 and 36,559 at end December 2010.

## Trends in the UCITS Market

### *Net Assets by Country of Domiciliation*

**Total UCITS net assets decreased by 7.1 percent in the quarter to stand at EUR 5,472 billion at end September 2011.** Among the largest domiciles of UCITS, Luxembourg, France and Germany witnessed decreases in net assets during the quarter of 8.2 percent, 7.9 percent and 10.3 percent, respectively. Ireland and the United Kingdom also experienced falls in net assets, albeit lower than the European average, of 2.0 percent and 6.3 percent, reflecting low net outflows in Ireland and net inflows in the United Kingdom.

Amongst the Nordic countries, Sweden and Norway witnessed net asset declines over the quarter of 14.4 percent and 12.3 percent, respectively, reflecting these countries' higher than average portfolio holdings of equities. In the Mediterranean region, Spain suffered a below average decrease in net assets during the quarter of 5.7 percent. Italy saw its assets decrease by 7.8 percent, whilst Portugal and Greece experienced a reduction in net assets of approx. 16 percent. In Eastern Europe, Poland recorded a decrease in net assets of 20.1 percent, partly reflecting a 10 percent depreciation of the polish zloty vis-à-vis the euro during the quarter.

Since end December 2010 total UCITS net assets have decreased by 8.9 percent.

All Funds	5,472,420	100%	5,892,302	-7.1%	6,007,907	-8.9%

(1) End September 2011 compared to end June 2011; (2) end September 2011 compared to end December 2010; (3) change in assets reflects a reclassification during the quarter, which moved funds from UCITS to non-UCITS; (4) the asset growth during the quarter reflects two new funds captured by Romanian data; (5) the asset growth reflects a growing number of funds captured by Swiss data.

## Trends in the Non-UCITS Market

### *Net Sales and Assets by Investment Type*

**Total non-UCITS assets decreased by 0.9 percent during the third quarter to stand at EUR 2,195 billion. Since end December 2010 non-UCITS assets have increased by 2.8 percent.**

Net assets of special funds bucked the trend to continue to record growth, albeit modest, of 0.2 percent during the quarter. Real estate funds recorded net asset growth of 1.7 percent since end 2010, despite a 1.2 percent decline during the third quarter.

The total number of non-UCITS funds stood at 17,707 at end September 2011, up from 16,987 at end 2010.

Special funds continued to record net inflows in the third quarter of EUR 21 billion, compared to EUR 16 billion in the previous quarter. Year-to-date special funds have enjoyed net inflows of EUR 65 billion, albeit down from net inflows of EUR 92 billion over the same period in 2010.

## Trends in the European Investment Fund Industry

### *Net Assets by Country of Domiciliation*

The combined assets of the investment fund market in Europe, i.e. the market for UCITS and non-UCITS, fell by 5.4 percent in the third quarter of 2011 to stand at EUR 7,667 billion. Year-to-date total net assets have decreased by 5.8 percent.

With EUR 5,472 billion invested in UCITS, this segment of the business accounted for just over 71 percent of the fund market at end September 2011, with the remaining 29 percent composed of non-UCITS.

(1) End September 2011 compared to end June 2011; (2) end September 2011 compared to end December 2010; (3) the asset growth during the quarter reflects two new funds captured by Romanian data; (4) the asset growth reflects a growing number of funds captured by Swiss data.

## Trends in the European Investment Fund Industry

### *Evolution of Net Assets <sup>(1)</sup>*

The combined assets of the investment fund market in Europe reached EUR 7,667 billion at end September 2011, compared to EUR 6,171 billion at end 2008, EUR 7,154 at end 2009 and EUR 8,142 at end 2010. Equity funds are responsible for approx. 82 percent of the fall in total net fund assets over the first nine months of 2011. The quarterly evolution of net assets of equity, bond, balanced and money market funds from 2008 is shown below.

(1) Breakdown of categories excludes Ireland due to non-availability of data.
