Trends in the UCITS Market

Net Sales by Investment Type

Net sales of UCITS rebounded to EUR 71 billion during Q2 2016, from net outflows of EUR 7 billion in Q1 2016.

Long-term UCITS recorded net inflows of EUR 44 billion in Q2 2016, against net outflows of EUR 5 billion in Q1 2016. Equity funds continued to experience net outflows in Q2 2016, larger than in Q1 2016, i.e. EUR 18 billion compared to EUR 4 billion. Net sales of bond funds rebounded in Q2 2016 to EUR 42 billion, following three consecutive quarters with negative net outflows. Net sales of multi-asset funds also increased from EUR 6 billion in Q1 2016 to EUR 14 billion in Q2 2016. The same thing happened with money market funds, which recorded net inflows of EUR 28 billion, against net outflows of EUR 2 billion in Q1 2016.

Trends in the UCITS Market

Net Sales by Country of Domiciliation

Seventeen countries registered net inflows into UCITS in the second quarter of 2016, with six countries recording net inflows above EUR 1 billion.

Among the major UCITS domiciles, Ireland reported the most important net sales in Q2 2016 (EUR 52 billion), thanks to strong net inflows into money market funds and bond funds. These two types of funds also sold well in Luxembourg and resulted in total net sales of UCITS of EUR 21 billion, despite strong net outflows from equity funds. Net sales of UCITS were also positive in Germany (EUR 3.2 billion). On the other hand, France and the UK suffered from net outflows (EUR 11.4 billion and EUR 4.7 billion, respectively), due to negative net sales of equity funds in both countries, coupled with important net outflows from money market funds in France.

All the Nordic countries recorded net inflows, with Denmark reporting the strongest net inflows (EUR 2.2 billion). In Southern Europe, Italy experienced net inflows of EUR 2 billion, while Greece, Portugal and Spain recorded net outflows, albeit of relatively small size. Finally, it is worth noting that Switzerland recorded net inflows of EUR 5.8 billion.

Trends in the AIF Market

Net Assets by Country of Domiciliation

The vast majority of countries recorded positive quarterly growth rates in net assets of AIF during Q2 2016.

Among the large domiciles of AIF, Ireland recorded an increase in net assets of AIF of 5.9%. The Netherlands, France, Germany and Luxembourg recorded asset increases of 4.4%, 2.8%, 3% and 1.4%, respectively. On the other hand, net assets of AIFs domiciled in the UK went down by 2.1%, in part due to net outflows from real estate funds and the depreciation of the British pound following the Brexit vote.

Elsewhere, AIF assets decreased in only four countries: Belgium (-2.7%), Bulgaria (-0.4%), Hungary (-1.6%) and Portugal (-3%).
